SCHOOL REPORT.

The school board was able to make arrangements with Gilsum to have the pupils in District No. 5 attend school in that town, so we have had only four schools and some of the money necessary to pay the expenses of the fifth school has been used to lengthen the school weeks of these four schools without in the least interfering with the privileges of those in No. 5.

There have been fifty-three pupils enrolled in the registers during the year.

We think good work has been accomplished during the year in the schools; in No. 2 we saw a marked improvement in the reading classes.

Doubtless as the town is enabled to have more weeks in the year and thus offer better opportunities to the young ladies teaching, there will not be so many changes, and the improvement will be much greater. It has been bad for children to have to become accustomed to new ways so often. If one teacher is kept through the year we can see that better work has been accomplished.

The whole number of pupils by enumeration Sept. 1, 1910, between the ages of five and sixteen years, was sixty-one.

We recommend that the sum of fifty dollars for school supplies and one hundred dollars for tuition be raised and appropriated for the schools.
